FOR IMMEDIATE RELEASE

GLHN HEALTHCARE AND WELLNESS STUDIO GROWS

RUSSELL COMBS JOINS PHOENIX TEAM

TUCSON, AZ (July 14, 2015)— Russell L. Combs has joined the Healthcare and Wellness Studio at GLHN Architects & Engineers, Inc. Combs will be based out of the firm's office in downtown Phoenix.

Combs has designed facilities for Banner Health, Department of Veterans Affairs, The Mayo Foundation, Yuma Regional Medical Center, and Methodist Hospital of Southern California. He is currently working on the New Bed Tower Project for Banner University Medical Center Tucson, in collaboration with GLHN partner Shepley Bulfinch.

"We have to bring warm creativity to the corporate world of templates and programs so we can humanize and bring comfort and compassion to the healing process", says Combs. His natural and unassuming approach is fostered by his previous experience as a design mentor at Arizona State University where he guided students to lead with intent, motivation, and understanding. Combs's passion for creating healing environments and his dedication to building places that promote health and well-being exemplifies his commitment to designing for wellness.
