FOR IMMEDIATE RELEASE

**UNIVERSITY OF ARIZONA SELECTS GLHN TEAM
FOR MCCLELLAND HALL PROJECT**

**ELLER COLLEGE PROFESSIONAL DEVELOPMENT CENTER TO GET
\$3 MILLION ADDITION**

TUCSON, AZ (September 12, 2014) — The University of Arizona has selected the team of GLHN Architects & Engineers, Inc. and Gould Evans to design a \$3 million addition to McClelland Hall for the Eller College Professional Development Center. The selected team also includes Holben Martin & White, structural engineers of the original building, completed in 1993. GLHN will serve as Architect and Engineer of Record, Gould Evans will be Design Architect.

The Professional Development Center is expected to play a critical role in maintaining the nationally-recognized image of the Eller College of Management, providing services for student skill development, job recruitment, donor recognition, and sponsorship.

GLHN has worked with the University of Arizona on major projects since the firm was founded over 50 years ago. Most recently, GLHN served as Architect and Engineer of Record for The University's Environment and Natural Resources 2 (ENR2) project, currently under construction on 6th Street, and designed temporary office space within Bear Down Gym during the renovation of Old Main.
